DETAILED ACTION

Claims 1–9 are pending and are considered on the merits.

Claim Rejections – 35 USC § 103

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over US 5,891,702 [A].

The claim is directed to a method of removing non-cyclic adenine nucleotides from a sample comprising:
adding apyrase, alkaline phosphatase and adenosine deaminase to the sample without the addition of a 5'nucleotidase.

The references are relied upon as explained below.

US 5,891,702 disclose a one step method of treating a biological sample with adenosine deaminase and at least one other enzyme selected from the group consisting of apyrase, alkaline phosphatase, acid phosphatase, hexokinase and ATPase (col. 6, ls. 11–16). No use of 5'–nucleotidase is suggested.

It would have been obvious to use the combination of adenosine deaminase, apyrase and alkaline phosphatase without the use of a 5'–nucleotidase because the reference clearly suggests using this combination.

One of ordinary skill in the art would have been motivated at the time of invention to perform these reactions in order to obtain the results as suggested by the references with a reasonable expectation of success. The claimed subject matter fails to patentably distinguish over the state of the art as represented by the cited references. Therefore, the claims are properly rejected under 35 U.S.C. § 103.

Allowable Subject Matter

Claims 2–9 are allowable.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
